## Reduce Risk. Strengthen Financial Operations.

Financial operations are a prime target after a breach. FiscalVue gives districts the visibility and control they need to verify, validate, and act with confidence.

### WHY IT MATTERS

**Spear phishing is on the rise.**

Attackers use stolen information to impersonate and manipulate.

**Fraudulent requests are more convincing.**

Criminals leverage names, roles, and financial details to appear legitimate.

**Disrupted workflows lead to costly mistakes.**

Manual processes and delays increase risk and uncertainty.

**Finance teams need clarity—fast.**

Districts need accurate, real-time information to stay secure and move faster.

### HOW FISCALVUE REDUCES EXPOSURE

**Real-Time Financial Visibility**

See accurate, up-to-date financial data in one place.

**Role-Based Access**

Right information.  
Right people.  
No public portals.

**Verified & Trusted Data**

Eliminate reliance on emailed reports and spreadsheets.

**Faster, More Confident Decisions**

Clear workflows and reliable data reduce risk and delays.

### THE OUTCOME

Better security and fewer exposures

Fewer disruptions and costly mistakes

Stronger confidence across finance teams

More time focused on students and district priorities

**Operational clarity is a security advantage.**

FiscalVue helps districts protect what matters most.
